DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

1. Group I, claims 1-19, drawn to a polypeptide having a sequence of SEQ ID NO:2, or a fragment or variant thereof exhibiting at least 50% sequence homology to the naturally occurring polypeptide, wherein the fragment or variant inhibits platelet function; a polypeptide isolated or cloned from hookworms, which inhibits platelet function; a pharmaceutical composition or a composition comprising the polypeptide; or a method for treating a patient comprising administering a composition comprising an effective amount of the polypeptide to inhibit platelet function.

2. Group II, claim 20, drawn to a cDNA sequence of SEQ ID NO:1.

The claims of these groups are directed to different inventions which are not linked to form a single general concept. The claims in the different groups do not have in common the same or corresponding technical features. In particular, each group is directed to distinct chemical entities and/or methods which use different materials and produce different effects. For example, the protein of Group I can be used to produce antibody, while the cDNA of Group II can be used to express the protein. Accordingly, the claims are not so linked by a special

technical feature within the meaning of PCT Rule 13.2 so as to form a single inventive concept and lack of unity is deemed proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement is traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

A telephone call was made to Arthur Schaier on July 14, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Chih-Min Kam whose telephone number is (703) 308-9437. The examiner can normally be reached on 8.00-4:30, Mon-Fri.
